

LifeWater Systems™

LifeWater® ECO RO 3

Proprietary Ceramic Ball Vessel that enhances water by resonance and mineralization increasing hydrogen, raising alkalinity, and reducing ORP aiding in the reduction of free radicals, over acidity, and oxidative stress while improving overall body hydration.

2

Carbon Block Pre-Filter (Organic contaminants,

3

RO Membrane (Removes salts, heavy metals, and other contaminants)

Providing Both Purified and Vitally Refreshing Enhanced Water

BENEFITS OF THE LIFEWATER SYSTEMS® ECO RO 3

1) Removal of chemicals and toxic contaminants for purified water:

- ◆ Removes organic contaminants (pesticides, herbicides, petrochemicals and other toxic chemicals).
- ◆ Removes heavy metals (lead, mercury, arsenic, etc.).
- ◆ Removes cysts (cryptosporidium, giardia, etc.).
- ◆ Removes salts.
- ◆ Produces water of an alkaline pH with anti-oxidant properties supportive for the reduction of oxidative stress and over acidity.

2) Enhanced and improved flavor of:

- | | |
|--------------|--------------------------------|
| ◆ rice | ◆ potatoes |
| ◆ soups | ◆ desserts |
| ◆ vegetables | ◆ juices |
| ◆ water | ◆ energy drinks |
| ◆ teas | ◆ nutritional drinks |
| ◆ coffee | ◆ anything that includes water |

3) Improved health:

- ◆ better and more thorough hydration while consuming less water
- ◆ improved assimilation and utilization of nutrients and supplements
- ◆ aids in reduction of oxidative stress / reactive oxidants (free radicals)
- ◆ aids in reduction of fatty, lactic, acetic, and uric acids (over acidity)
- ◆ may aid in weight loss
- ◆ produces a neutralizing and synergetic effect which in turn helps promote a healthier and vital internal environment
- ◆ provides more H⁺ ions that can help preserve internal cellular water
- ◆ improves cellular function promoting optimal balance in the digestive tract enhancing self healing abilities and immune system strength
- ◆ may improve athletic performance by donating hydrogen and accepting oxygen while donating electrons to atoms or ions

Life Just Got Better™
